Masterpiece Advisors

HEDGE FUND RESEARCH SOLUTIONS

OVERVIEW

We believe:

- Hedge fund research and due diligence should be efficient and targeted.
- Rigorous qualitative and quantitative screening identifies opportunities while avoiding time-wasting pitfalls.
- Technology provides an uplift in data management, qualitative analysis, and report generation automation.

"Institutional investors need rigorous, independent hedge fund research. Masterpiece delivers it."

MASTERPIECE OFFERS RESEARCH SOLUTIONS FOR ALL HEDGE FUND INVESTOR TYPES

RESEARCH SOLUTIONS WE PROVIDE

- Custom research aligned to each client's investment process
- Advanced manager sourcing and due diligence
- Systematic research coverage that reduces client internal resource requirements
- Operational Due Diligence expertise and monitoring
- Institutional-quality reporting

THE VALUE WE DELIVER

- Independent research (no asset management bias)
- Strategic, targeted manager sourcing and vetting
- Industry experience and network to fast-track analysis
- US/NYC based team provides on-the-ground US HF industry and capital markets intelligence

About our Founder: Aaron P. Sweeney

Building Hedge Fund Due Diligence Expertise Across Global Platforms

Institutional DD, Early Years: Founder Aaron Sweeney started his hedge fund due diligence career in 2001 at Zurich Capital Markets where he conducted operational due diligence on the 1000 hedge funds on the firm's balance sheet. The firm was a leader at the time in providing structured products and credit facilities to hedge fund of funds and hedge funds. BNP: BNP Paribas purchased the division in 2003 and Mr. Sweeney continued to diligence funds within the Equity Derivatives unit of BNP.

Multi-Disciplinary DD & Trading Experience: During the BNP transition, Zurich Capital Market's former due diligence director Robert Krause, opened a dedicated hedge fund due diligence firm named Event Capital Markets serving one large Swiss/Greek family office with multiple billions invested in hedge funds across hundreds of investments. Mr. Sweeney consulted with Event Capital Markets as a secondary source of income while doing proprietary trading and sales/trading from 2004 to 2008.

Diligence & Strategic Leadership: In 2009 Event Capital Markets merged with Analytical Research and Mr. Sweeney was a day-one hire at the newly formed firm. He helped this European-based consultant grow to $3 billion AUA invested across 15 single funds and 20 hedge fund of funds. During his time, he served as Managing Partner, Director of Research and Chief Strategist. The firm embarked upon building proprietary hedge fund database software, a project Mr. Sweeney embraced, but also learned internal software development 10 to 15 years ago is costly and slow versus off-the-shelf solutions.

Mr. Sweeney left Analytical Research in 2018 and formed Masterpiece Advisors with a singular mission to create a highly organized and efficient hedge fund research platform serving the needs of global institutional investors.

Meet our Masters of DD

How collaboration serves as the bedrock for excellence

Momentum/Pioneer Hedge Fund of Funds:
Maureen Hladky and Alice Healy's leadership at Masterpiece Advisors is grounded in a rare professional alignment they worked together for a decade in the 2000s at multi-billion hedge fund of funds Momentum/Pioneer Alternative Investments. This experience is where they built the operational rigor that defines their approach today. Maureen spent nearly a decade there as a Senior Hedge Fund Analyst, spearheading U.S. due diligence operations for an $8B platform and serving on the Pricing Committee and Board. Alice, as Managing Director and Global Head of Research & Due Diligence, oversaw $5B in hedge fund assets and launched Pioneer's first in-house operational due diligence program. That shared experience at Pioneer—managing teams, developing risk frameworks, and monitoring dozens of managers—created a common language and philosophy they would carry forward.

Analytical Research/Masterpiece:
When Maureen joined Masterpiece in 2018 and Alice formally joined in 2021 they brought complementary strengths honed across their careers. Maureen’s tenure at Analytical Research as Head of Operational Due Diligence demonstrated her ability to deliver comprehensive assessments covering investment strategy, risk management, and business operations. Alice's broader path—building due diligence programs globally at Momentum and Mazuma, then running Quillman Partners as a specialist in alternative investment research and operational due diligence—gave her a strategic lens on portfolio construction and risk management. Together, they conduct operational reviews of all client-invested and approved-list managers with the exactitude they learned at Pioneer, transforming hedge fund due diligence from a compliance function into a competitive advantage that protects and grows client capital.

Investment Due Diligence Research Supervisor

Who We Are and What We Do

Masterpiece Advisors is a dedicated hedge fund consultant. Staffed by industry specialists with decades of experience running hedge fund research and due diligence processes.

Each member of the firm has roles and responsibilities corresponding to their level of experience.

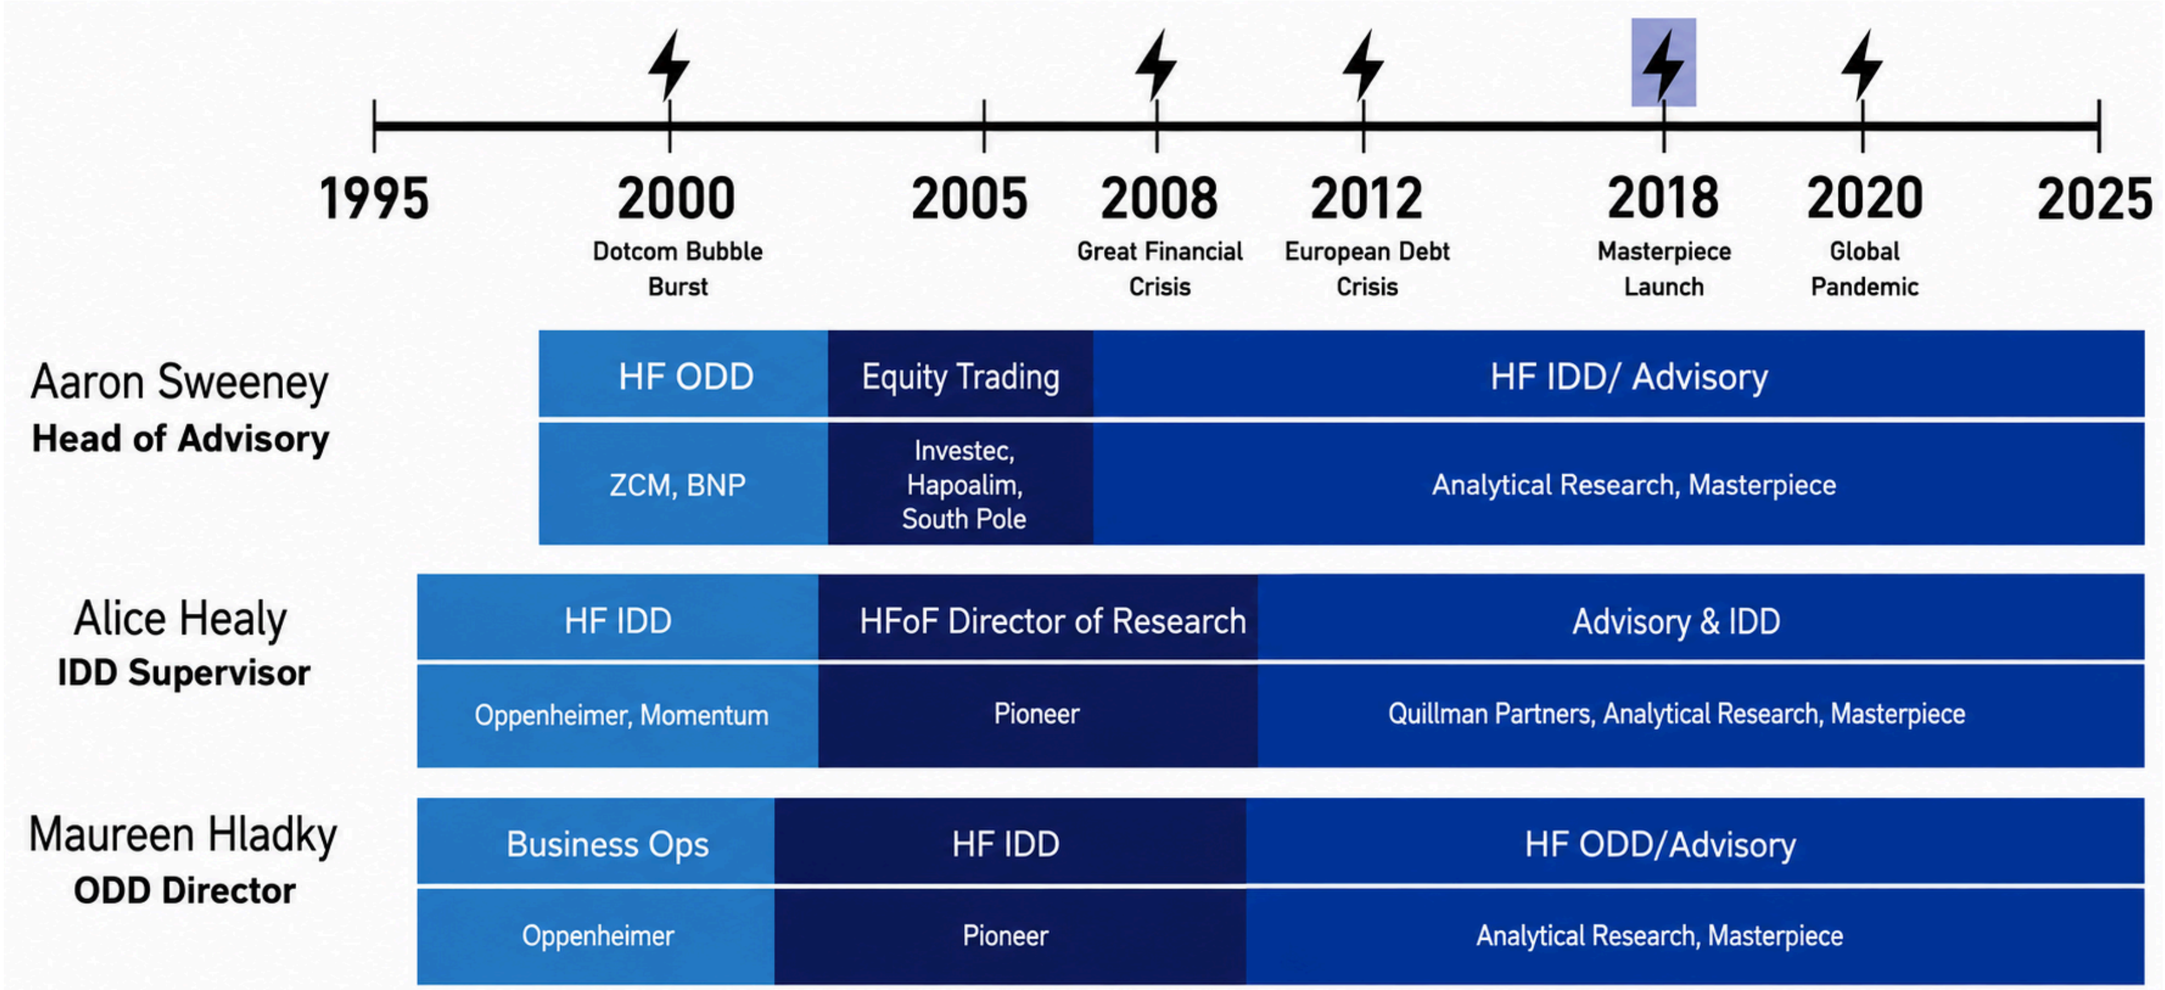

- Mr. Sweeney spearheads client service, idea generation and portfolio engineering.
- Two dedicated division heads, Maureen Hladky and Alice Healy oversee operational due diligence and investment due diligence.
- Two associate/analyst level staff members Murphy McMahon and Christopher Langie provide analysis support and data management.

We maintain a 50+ hedge-fund-approved list serving the needs of our advisory business.

- Each fund on the list has undergone the full hedge fund investment due operational due diligence and operational due diligence review.
- Mr. Sweeney, Mrs. Healy and Mrs. Hladky serve as the voting members of Masterpiece's internal IC to approve entrants to the list and move existing funds off the list.

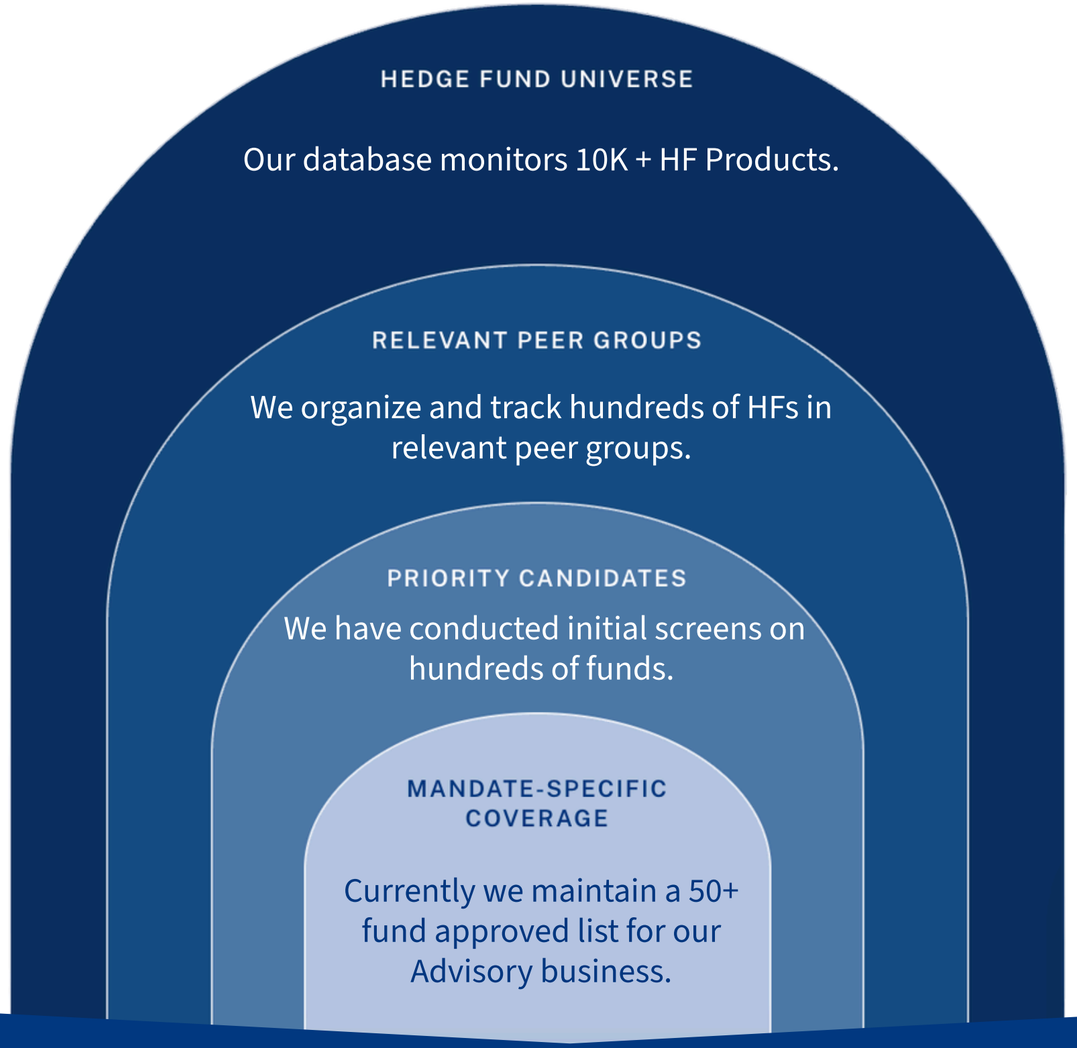

Senior Staff Financial Industry Experience

Senior members of the team have worked together for decades and are all tenured hedge fund due diligence professionals.

Funds Continuously Move Through our Research Pipeline

Constant Cycle of HF Analysis

Ongoing Fund Monitoring and Assessment

- Analysts continuously review existing and candidate funds
- Screening the investment universe to build relevant peer groups
- Measuring approved list funds against potential replacements

Multifaceted Evaluation Frameworks

- Qualitative and quantitative analysis frameworks assess each fund
- Leverage Masterpiece's extensive hedge fund industry network
- Supplement internal perspectives with external insights

Rigorous and Dynamic Due Diligence

- Thorough assessment of funds, both current and prospective
- Peer group comparisons to identify relative strengths and weaknesses
- Integrating qualitative manager intelligence with quantitative analysis

Candidate Fund Profiles

Target Funds

- Risk Management
- Competitive Risk/Return Profile
- Intelligence/Pedigree
- Entrepreneurship
- Measured Firm AUM Growth

Avoided Funds

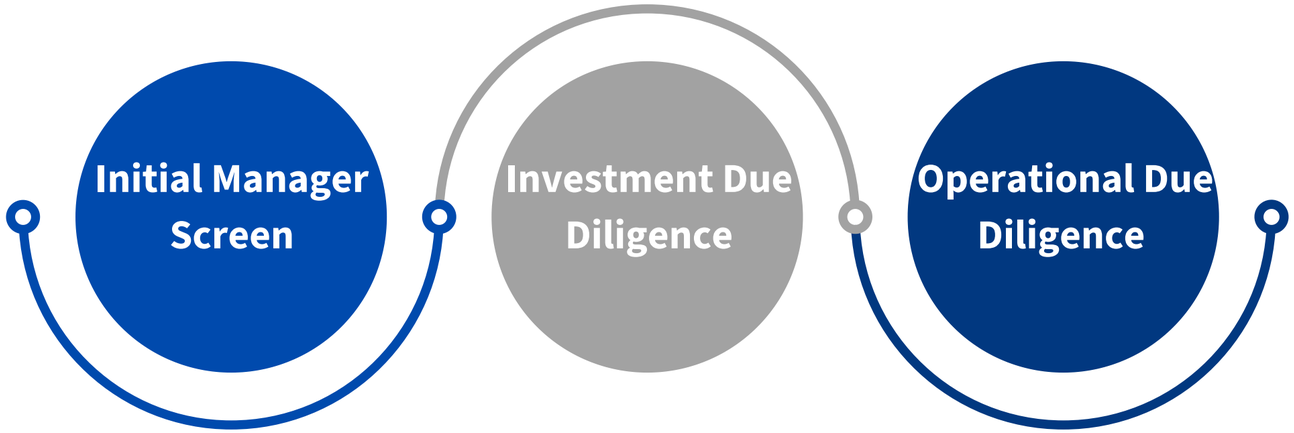

- No Risk Management
- Weak Risk/Return Profile
- Extreme/Aggressive Communication
- “Employee Culture”
- Asset Gatherers

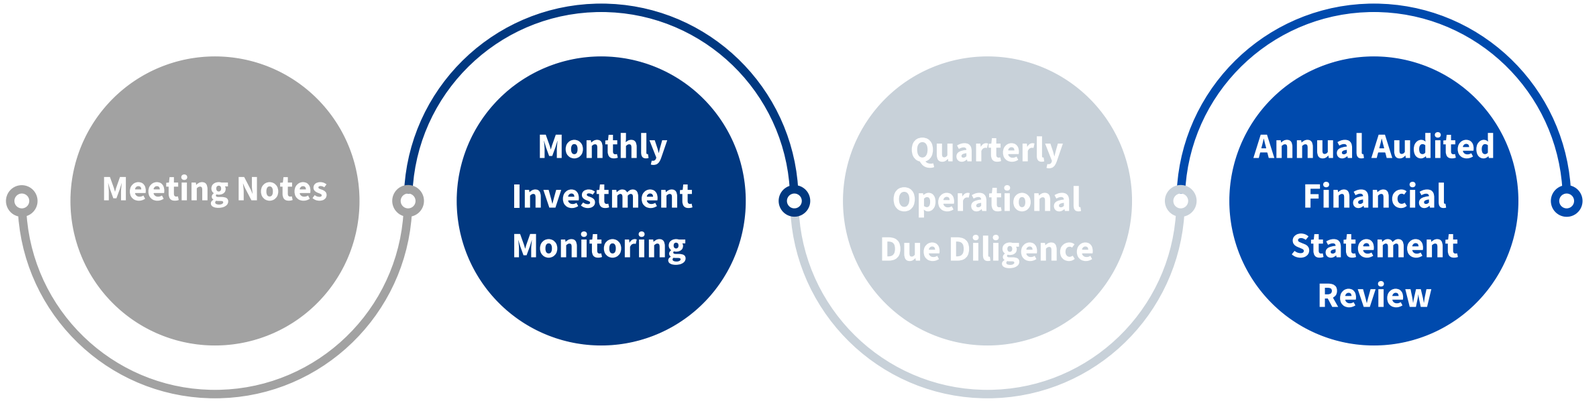

Pattern recognition efficiently prioritizes candidates

Due Diligence Report Documentation across all stages of the process

Fund Selection/Onboarding

Fund Monitoring

Our Tools and Process

Notes & Documents Database

We maintain a database of easily accessible internal meeting notes and fund documents for easy reference while conducting our research.

Quantitative Software

We use off-the-shelf quantitative hedge fund statistics software that combines proprietary data with HFR index data to run portfolio simulations and consolidated NAV reporting.

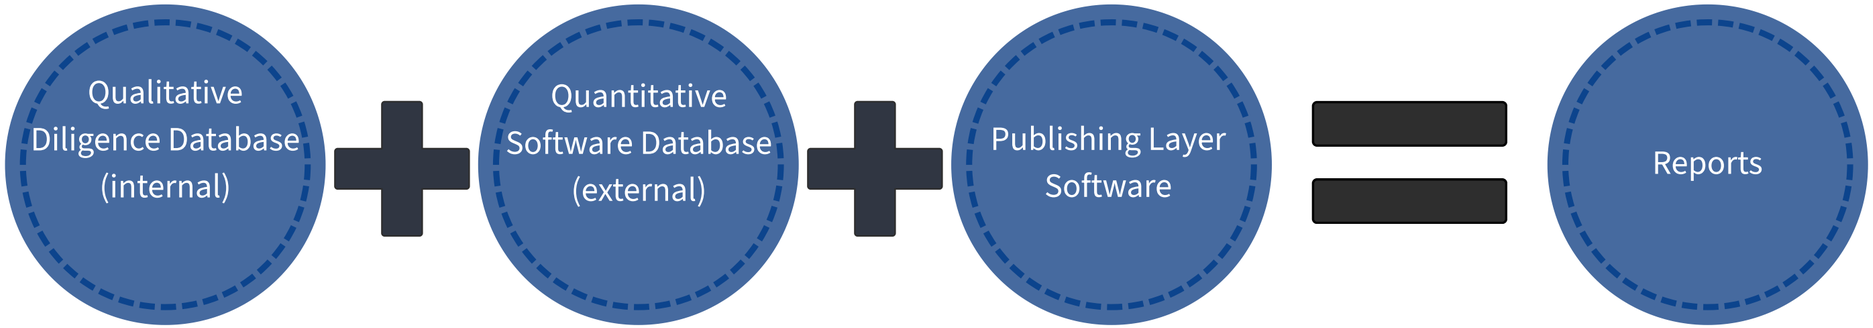

Qualitative Database

The firm transitioned from third-party software to a bespoke solution over the past twelve months, providing the qualitative engine for report generation and data analysis. The database organizes research prioritization and serves as the Q&A repository for all of the firm's qualitative diligence.

Report Generation Workflow

Via the combination of API and Adobe software we combine our multiple data sources into our institutional-level reporting package. The firm produces and delivers hundreds of pages of institutional-level due diligence and monitoring reports each month.

Streamlined and automated report generation workflow (lean tech stack, API + Professional Publishing Layer)

Masterpiece Research Solutions
Key Services

Portfolio Performance & Risk Monitoring

- **Real-time exposure tracking —** Monitor positions, gross/net leverage, sector concentration, and overlap across your hedge fund portfolio
- **Illiquidity & risk assessment** — Identify concentration risks, portfolio bucketing by risk category, and gaps in diversification
- **Continuous operational oversight** — Monthly investment due diligence monitoring and quarterly operational due diligence reviews to catch red flags early

Manager Research

- **Deep operational vetting** — Comprehensive operational due diligence uncovers infrastructure risks, third-party vulnerabilities, and operational red flags before they become portfolio problems
- **Investment thesis validation** — Rigorous investment due diligence and audited financial statement analysis confirm manager capability, strategy integrity, and track record authenticity
- **Institutional-grade conviction** — Independent research backed by decades of industry expertise gives your IC the confidence to invest or divest with conviction

Peer Group Analysis & Sourcing

- **Strategic manager benchmarking** — Peer group ranking and side-by-side qualitative comparisons reveal relative strengths, weaknesses, and competitive positioning against relevant alternatives
- **Targeted sourcing intelligence** — Systematic screening and analysis of peer groups identify the best-in-class managers worth your capital allocation and flag underperformers for replacement
- **Data-driven replacement decisions** — Comprehensive peer comparisons across investment and operational dimensions eliminate guesswork from portfolio engineering decisions

Local US Research Presence

- **On-the-ground manager intelligence** — Direct manager meetings, conference attendance, and real-time relationship network access give you ground truth on US hedge fund market dynamics and manager quality
- **Midtown NYC presence** — Located in the heart of the US hedge fund ecosystem, we leverage our embedded network and on-site access to deliver boots-on-the-ground insights competitors can't match
- **Local operational vetting** — Direct service provider liaison and on-site access enable hands-on operational assessment and early detection of operational and organizational risks.

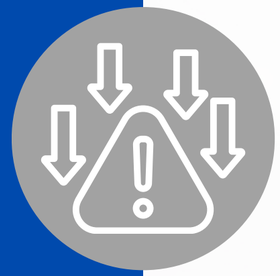

Deploying Masterpiece Research Solutions

OUR COMPANY **VISION**

Extend Your Reach — We eliminate capacity constraints. Your internal team can focus on high-conviction ideas while we systematize screening, monitoring, and analysis. Scale your coverage without scaling headcount.

Reduce Risk Through Rigor — Every investment is backed by our dual-track qualitative and quantitative framework. We catch operational red flags early, conduct thorough peer comparisons, and maintain continuous monitoring that prevents surprises.

Accelerate Decision-Making —Institutional-grade reports delivered monthly. No more scattered spreadsheets or delayed analysis. Our automated workflow transforms raw data into actionable intelligence your IC can trust.

"We are the research operations backbone institutional hedge fund investors need to compete."

The following case studies illustrate how Masterpiece's Hedge Fund Research Solutions transform institutional challenges into competitive advantages.

PORTFOLIO RISK MONITORING
THE OVERWHELMED PM

CASE 1

Situation: $2B allocator with 40 existing hedge fund positions, trying to stay on top of quarterly reviews, monitor for drift, and screen for potential replacements. Internal team is drowning.

Solution: Masterpiece takes quarterly ODD reviews, monthly IDD monitoring, and continuous candidate screening off their plate. Internal team goes from reactive firefighting to strategic portfolio engineering.

Outcome: 30% time savings; better-informed replacement decisions; zero operational surprises.

PEER GROUP ANALYSIS & SOURCING

SWISS EYES ON US HEDGE FUNDS

CASE 2

Situation: €3B Zurich-based family office has strong European hedge fund conviction but minimal visibility into US-focused managers. They lack on-the-ground sourcing, manager meetings, and real-time operational intelligence on US funds.

Solution: Masterpiece becomes their US research arm. We source and screen emerging US hedge fund managers, conduct on-site operational due diligence at US fund offices, and provide quarterly deep-dive reports on US market trends, manager pedigree, and operational red flags specific to the US regulatory environment.

Outcome: Access to pre-screened US manager universe; ground truth on operational quality; market intelligence they cannot get from offshore.

PORTFOLIO RISK MONITORING

NYC FAMILY OFFICE OPERATIONAL RISK

CASE 3

Situation: $12B New York–based MFO manages 80+ hedge fund positions but wants specialized operational research on fund infrastructure—custodian quality, administrator capability, third-party service provider risk assessment. Current monitoring is performance-focused, not operationally rigorous.

Solution: Masterpiece provides quarterly operational deep-dive research reports, US regulatory/compliance landscape analysis, third-party vendor risk assessments, and red-flag detection specific to operational vulnerability.

Outcome: Systematic operational risk monitoring; early detection of infrastructure fragility; IC confidence in operational quality across portfolio.

PORTFOLIO RISK MONITORING

THE GROWTH ALLOCATOR WITH BLIND SPOTS

CASE 4

Situation: $750M growth-focused allocator with 35 hedge fund positions across multi-strategy, event-driven, and long/short equity. PM and team are consumed with sourcing new managers and optimizing existing positions; they lack systematic visibility into portfolio-wide liquidity mismatches, sector concentration creep, and operational quality across holdings.

Solution: Masterpiece implements continuous portfolio risk monitoring with monthly investment oversight, quarterly operational reviews, and real-time exposure tracking. Dashboards track portfolio concentration risks and illiquidity before they become portfolio problems.

Outcome: Identifies unexpected risk overlap in three manager positions leading to position consolidation; flags operational concerns at one manager before they escalate; frees internal team from reactive firefighting to focus on strategic capital deployment; leads to a dramatic decrease in operational surprises.

MANAGER RESEARCH (ODD/IDD)

THE SKEPTICAL LP WITH TIME CONSTRAINTS

CASE 5

Situation: A multi-billion AUM emerging manager allocator receives a warm introduction to a high-conviction, capacity-constrained new launch with a stellar pedigree. Due diligence timeline is compressed—the LP needs conviction within 60 days or risks losing the ability to invest.

Solution: Masterpiece conducts accelerated but comprehensive investment and operational due diligence, including deep-dive audited financial analysis, service provider verification, and infrastructure assessment. We validate track record authenticity, confirm investment process repeatability, and flag operational vulnerabilities before capital commits.

Outcome: LP discovers a critical third-party admin issue that could have created operational issues. Moves forward with confidence on manager quality while negotiating operational safeguards. Deploys $50M with institutional-grade conviction.

PEER GROUP ANALYSIS & SOURCING

THE CONSOLIDATING FUND OF FUNDS

CASE 6

Situation: $1.2B fund-of-funds manager needs to rationalize 28 existing hedge fund positions due to scale constraints and performance drift. Leadership can't identify which managers are truly best-in-class versus which are just "good enough." Replacement pipeline is nonexistent.

Solution: Masterpiece builds comprehensive peer group benchmarks across investment and operational dimensions, revealing relative strengths and weaknesses. We then conduct systematic sourcing and screening to identify replacement-quality managers aligned with the fund's strategy buckets and risk tolerances.

Outcome: Reduces portfolio to 18 core positions with higher conviction; replaces three underperforming managers with best-in-class alternatives identified through sourcing; improves portfolio Sharpe ratio by 15%.

LOCAL US RESEARCH PRESENCE

THE OFFSHORE ALLOCATOR ENTERING US MARKETS

CASE 7

Situation: $3B Singapore-based allocator is investing in US-based hedge funds for the first time and lacks local intelligence on regional manager ecosystem, regulatory nuances, and service provider quality. Wants to build a $200M US allocation but can't rely on sales and banking relationships alone.

Solution: Masterpiece leverages our Midtown NYC embedded network to provide boots-on-the-ground manager intelligence, direct on-site access for operational assessment, and real-time market intelligence on emerging US managers. We facilitate introductions, attend manager conferences, and identify early-stage operational red flags.

Outcome: LP builds conviction-based $200M US allocation; avoids two managers with hidden compliance issues; gains insider perspective on US market dynamics; establishes relationships with best-in-class service providers.

MANAGER RESEARCH

THE WEALTH PLATFORM
SCALING HEDGE FUND ACCESS

CASE 8

Situation: A rapidly growing $20B wealth management platform lacks hedge fund coverage, limiting service to high-net-worth clients and creating gaps in manager due diligence, operational monitoring, and NYC-based sourcing. Building this offering internally risks poor manager selection, missed red flags, and regulatory exposure. The platform needs institutional-grade hedge fund coverage without the cost and complexity of building an internal team.

Solution: Masterpiece serves as the research operations backbone for the platform's hedge fund offering, providing systematic manager sourcing, vetting, and comprehensive due diligence backed by dual-track qualitative and quantitative frameworks. We deliver ongoing stewardship through monthly monitoring, quarterly reviews, and real-time exposure tracking with early red-flag detection. We provide institutional reporting, maintain rigorous compliance documentation, and leverage direct access to our Midtown NYC network for US hedge fund ecosystem intelligence.

Outcome: The wealth platform launches a hedge fund offering with institutional-grade conviction and minimal resource drain, building a curated 25-manager approved list within 12 months. Client adoption accelerates as advisors gain confidence in manager quality, operational surprises drop to near-zero, and compliance documentation becomes comprehensive and defensible. The platform differentiates itself by offering truly vetted alternatives and can now advertise hedge fund stewardship as a competitive advantage, attracting HNW clients seeking sophisticated portfolio asset allocation.

Executive Summary

YEAR FOUNDED	HEADQUARTERS	NUMBER OF EMPLOYEES	ACTIVE CLIENT HF INVESTMENTS
2018	New York City	6	38

OUR TEAM

Aaron Sweeney

FOUNDER / CEO / HEAD OF ADVISORY

With 25 years of hedge fund experience, Aaron Sweeney is the Founder and Head of Advisory at Masterpiece Advisors, where he advises institutional clients. He previously held senior roles at Analytical Research and has worked at Bank Hapoalim, Investec, BNP Paribas, and Zurich Capital Markets. He holds a B.S. from Cornell University.

Maureen Hladky
